

WINCHESTER FILM SOCIETY 2014/15 Season

Welcome to our 2014/2015 season of films at the Winchester Film Society. We're delighted to announce, that after last season's shorter selection, we're back to showing sixteen films. Mainly thanks to our generous hosts at the Winchester Science Centre and their amazing planetarium. If you haven't had a chance to have a look around the Science Centre and take in all the wonders they have to show, please do so. www.winchestersciencecentre.org

Speaking of websites, don't forget to check out ours too! www.winchesterfilmsociety.co.uk where you'll find all the information and trailers about our current season as well as all the superb films we've shown in the past. We're planning on rolling out online payment this season and revamping our Facebook and Twitter accounts to keep you right up to date with what's happening.

This season's films cross all five continents, including two very different documentaries from Africa, a lost classic from Australia, a nail-bitingly tense American thriller, a multi-layered reflection on modern China, a 'middle aged' South American drama and a bold and powerful hard-hitting prison drama from right here in England. We even take you far north, up beyond the Arctic Circle with a Russian psychological drama. So when we say 'World Cinema', we mean it!

So please join us at the Winchester Science Centre on a Tuesday night. For the whole season or just a single film, whichever you choose, a warm welcome awaits. Come and join the party.
